

Good Will Message

It is with great pleasure that I accept to write a message as a President of the Africa Society of Sport and Exercise Psychology (ASSEP) to Commemorate the ISSP 50th Anniversary.

Firstly, let me congratulate the society for attaining the golden age and salute all past and present Presidents, Vice Presidents, Management Councils and other members all over the world for being able to witness the events celebrating ISSP 50th Anniversary.

Secondly, that these events will hold in the exact city and place where ISSP was formed and inaugurated is a thoughtful and commendable effort by the organizers and has demonstrated the commitment on the part of the body to keep alive the dream of the founding fathers. Late Dr. Ferruccio Antonelli, the founder of ISSP will be extremely happy and feel fulfilled wherever he is, on this very special occasion.

Thirdly, it is noted that within this 50 years of existence, ISSP had been able to establish sport psychology societies in all the continents of the world with ASSEP being the youngest was officially established in July 2013 at the 12th ISSP World Congress held in Beijing, China.

In conclusion, the growth of ISSP had been phenomenon and the expansion had been enormous with marvelous and unprecedented professional and scientific technological contribution to sport and exercise development and advancement. Membership is increasing at every ISSP World Congress. It is a great achievement.

**BRAVO. LONG LIVE ISSP !!!
HEARTY CONGRATULATIONS**

Professor Philomena Bola Ikulayo, PhD., LLB.,BL.
President-ASSEP
Foundation President-SPAN
Former Vice President-ISSP
